Where not noted, call the individual business for hours, fees, instructions, or general questions.

\*\*\*\*\* North Whitehall Township does not endorse any of these businesses or their services. This list is only a guide to locating local freon recovery agents. \*\*\*\*\*

**PPL** currently has an incentive program for appliance recycling. – Call 1-877-270-3522 to see if you qualify.

## Appliance Recycling

Your old, spare residential-sized refrigerator or freezer can use two to three times more electricity than newer, ENERGY STAR® models. Now you can have those inefficient appliances picked up for free, get paid for doing so and reduce your electricity use. Plus, 95 percent of the materials from these appliances will be recycled and not just dumped in landfills.

The refrigerator or freezer must be in working condition and be between 10 and 30 cubic feet in size. You must own the unit and be a PPL Electric Utilities customer. Limit two units per address per calendar year. A \$35 incentive check will be mailed to you after the appliance is collected.

**Bonus:** If you have inefficient, working window air conditioners, we will have those picked up at the same time as your refrigerator or freezer and give you an additional \$25 per unit, limit four per household per calendar year.

Additionally, PPL Electric Utilities has teamed up with Best Buy and Sears to offer our customers a convenient way to buy a new refrigerator AND arrange to recycle the old one at the same time. Customers can receive from PPL Electric Utilities a \$25 rebate for the new refrigerator and a \$35 check for recycling the old refrigerator, and Best Buy or Sears will make arrangements for delivery and pickup. Call 1-877-270-3522 or see an in-store sales representative.
